EDUCATION

Ain Shams University, Cairo, Egypt

Faculty of Al-Alsun (Languages) | German Department | 2021 – exp. 2025

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, SQL.

Frameworks, Libraries & Databases: React.js, Next.js, TailwindCSS, Bootstrap, jQuery,

Express.js, PostgreSQL, MongoDB.

Platforms & Tools: Git & GitHub, NPM, Postman.

Projects

Movibes | Github | Live Demo
A Movies/Tv shows website built with Next.js, TypeScript, and TailwindCSS.

- **Simulated Authentication**: Experience the feel of a real movie platform with our simulated login and signup features, all managed using a users.json file.
- **Server-Side Rendering (SSR)**: Enjoy fast and optimized loading times thanks to our server-side rendering, providing a seamless user experience.
- **Search Functionality**: Easily find your favorite movies or TV shows with our powerful search feature.
- **Single Page Application (SPA)**: Movibes leverages the power of single-page application architecture to ensure smooth and uninterrupted browsing.

Movies API | Github
A RESTful API for movies built with Node.js, Express.js, and TypeScript

- Developed a secure RESTful API for movies using Node.js, Express, and TypeScript, featuring user registration, authentication, and movie search functionality.
- Implemented user authentication with JSON Web Tokens (JWT) stored in HttpOnly cookies, ensuring data privacy and security.
- Designed and maintained the project, demonstrating proficiency in full-stack development, API design, and database integration.
- Leveraged TypeScript to enhance code quality and maintainability, providing a foundation for future expansion and improvement of the API.
- Data scraped from "IMDB" using Node.js and Puppeteer.
